

# The Local History & Genealogy Center of the Warren-Trumbull County Public Library

---

The focus of the Local History & Genealogy collections is on Trumbull County, its cities and townships. Materials about other Ohio counties, the state of Ohio, and other states are available as well. Print collections feature histories, indices to vital records, city directories, school annuals, telephone books, cemetery data, newsletters and publications from genealogical and historical societies. The Library also subscribes to several databases useful to research in the area, including Ancestry and Heritage Quest.

Researchers are encouraged to use the Research Request Form found on the webpage, but queries are taken by phone and letter as well. The staff time is limited to quick-answer type research, but a list of independent professional researchers is available upon request.

The Local History & Genealogy Center also offers classes that provide an introduction to genealogy. Registration is required; call (330) 399-8807 ext. 130 for upcoming class dates and to sign up.
