

# Mahoning Valley Railroad Heritage Association - Jim Marter Yard

---

The Mahoning Valley Railroad Heritage Association was formed in 1985 to preserve the railroading history and heritage of the Mahoning Valley in Ohio. The steel railroad industry is a major focus of the MVRH, which maintains the largest collection of steel industry rail equipment in the United States. Its purpose is to gather, preserve, collect and display equipment and objects of historic importance to the Mahoning Valley Railroads. This includes the collection and preservation of railroad cars, engines, cabooses, steel industry related rail equipment, pamphlets, photographs, manuscripts, letters, journals, books, records, and other articles which describe and illustrate the railroad and steelmaking heritage.

The Mahoning Valley Railroad Heritage Association offers a welcoming railroad experience for families and visitors of all ages through enriching, entertaining, and educational activities, programs and exhibits at the Steel Valley Railroad Museum. The Museum provides a positive environment that cultivates knowledge of our industrial heritage and offers a repository of information for future generations to draw upon.
